SUMMARY

6+ years turning operational, financial, and commercial data into reporting that business stakeholders act on. Hands-on with SQL, advanced Excel, Python, and Power BI, building dashboards and KPI reporting used by senior leadership and clients. Experience spans client accounts, engineering programmes, and global technology teams, working with finance, engineering, and commercial stakeholders to define metrics and own the numbers behind them. MSc in Data Science and Analytics (Cardiff University), with Distinctions in Machine Learning, Database Modelling, Computational Data Science, and Credit Risk Analysis.

WORKING EXPERIENCE

Structured Investment Firm

Remote

Credit Risk Analyst (Internship)

Jan. 2026 – Jun. 2026

- Analysed borrower financial data and repayment behaviour in SQL and Excel to support credit assessments.
- Built exposure and repayment tracking in Excel, summarising portfolio risk for senior review.

Aamomi

Remote

Data Analysis & Client Reporting

Jan. 2025 – Dec. 2025

- Owned performance reporting across 10+ concurrent client accounts, tracking results against agreed targets.
- Reported account and campaign performance directly to clients, turning raw delivery data into updates non-technical stakeholders could act on.
- Tracked budgets against forecast and flagged variances early, keeping 95% of accounts within budget and cutting average overruns by 12%.
- Built the recurring reporting pack used for client reviews, standardising how results were measured across accounts.

Dev Corps

Remote

Reporting & Analytics (Part-time)

Oct. 2023 – Nov. 2024

- Built Power BI dashboards for senior leadership tracking KPIs, utilisation, and portfolio status.
- Owned recurring reporting end-to-end, from pulling the underlying data through to the decks leadership reviewed.
- Introduced LLM-based document processing into the reporting pipeline, cutting manual report preparation time by 30%.
- Audited live work and implemented corrective actions where delivery or the reported numbers had drifted.

Dynamic Racing Concepts

Mumbai, India

Data Analysis & Reporting

Aug. 2021 – May 2023

- Built financial models and ROI analyses in SQL and Excel, used to decide which initiatives got funded.
- Analysed cost and revenue data across concurrent workstreams to support prioritisation calls by senior leadership.
- Created reporting and communication materials for senior stakeholder review and sign-off.

HERE Solutions

Mumbai, India

Data Specialist

Feb. 2019 – Jul. 2021

- Tracked daily KPIs to assess delivery health, flagging issues early and giving stakeholders a current picture.
- Used Kibana, Jira, Confluence, and Clarity PPM for tracking, documentation, and reporting.
- Led a cross-functional team of 21 across APAC, Western Europe, and North America, working directly with US counterparts.
- Letter of Recommendation: <http://bit.ly/4kcUbeS>

SKILLS

Analytics	SQL, Python, Advanced Excel, KPI Definition & Tracking, Variance Analysis, Financial & ROI Modelling
BI & Reporting	Power BI, Kibana, PowerPoint, Dashboard Design, Executive & Client Reporting, Weekly & Monthly Performance Reporting
Data	Database Modelling, Data Quality & Reconciliation, Machine Learning, Computational Data Science
Tools & Platforms	Jira, Confluence, Azure DevOps, Clarity PPM, SharePoint, AWS, MS Office Suite
Certifications	PRINCE2 Practitioner, Certified Professional Scrum Master (PSM), Business Analysis

EDUCATION

Cardiff University	United Kingdom
MSc in Data Science and Analytics, Merit (69.28%)	Sep. 2025
Modules: Credit Risk Analysis (Distinction), Database Modelling (Distinction), Machine Learning (Distinction), Computational Data Science (Distinction)	

ACHIEVEMENTS

- Rising Star Award – Top 5% performance ranking among 80+ employees for delivery and stakeholder management.
- Best Team Award – Led cross-functional team of 20, delivering project milestones ahead of schedule.
- Completed advanced training through the HERE Testing Community, earning professional certification in quality assurance.
